Print and Play Math Games
Addition to 15

By Games 4 Learning
www.teacherspayteachers.com

Owl Pairs - Add to 11
Color two adjoining numbers that add to 11.
a game for 2 players
Players take turns to color 2 adjoining numbers that add to 11.
The numbers must be in squares that are joined along a side.
For example - on a turn a player could color 3 and 8 or 6 and 5.
The last player who can color a pair of numbers that add to 11, is the winner.
Need: Pencils

Game 1					Game 2				
5	4	7	4	5	8	7	4	2	9
6	7				3	6	7	8	3
5				8	6	9	2	8	3
				5	7	4	1	11	5
				4	4	5	10	2	6
						5	6	0	9
						6	8	11	0
						7	4	3	8
						5	6	2	9

Alligator Pairs and Trios - Add to 15
Color any two or three numbers that add to 15.
a game for 2 players
Need: Pencils
Players take turns to color 2 or 3 numbers that add to 15. The numbers can be anywhere on the board and do not have to be in adjoining squares. For example - on a turn a player could color 8 and 7 or 6, 4 and 5. The last player who can color a pair or a trio that add to 15, is the winner.

Preparing the Games

These are 'Print and Play' games.
Simply print the game on paper and it is ready.
Players will require pencils to play.

Each game is for 2 players with 2 games provided on each sheet so that the players can play the game twice.

Using the Games

Math Centers – These games are ideal for a math center activity. Have the children read the instructions themselves if possible as this is a great reading comprehension activity.

Display on Smart Board – The games can be projected onto your smart board and the class can be broken into 2 teams to play.

Homework – The games are also suitable for homework. They are a fun alternative to regular homework and parents can be involved in playing the game with their children. This is really popular with the kids and the parents.

Fast Finishers – The games are a perfect activity for those children who finish their work early.

Students as Teachers - A worthwhile activity is to have children learn how to play a game and then teach it to others. Teaching others how to play is a great communication activity.

Buddy Class Activity – Another use for the games is to use them as a buddy class activity. Have the younger students 'teach' their older buddies how to play the game.

Owl Pairs - Add to 11

Color two adjoining numbers that add to 11.

a game for 2 players

Need: Pencils

Players take turns to color 2 adjoining numbers that add to 11.

The numbers must be in squares that are joined along a side.

For example – on a turn a player could color 3 and 8 or 6 and 5.

The last player who can color a pair of numbers that add to 11, is the winner.

Game 1				
5	4	7	4	5
6	7	3	8	6
5	3	8	1	5
6	10	1	10	4
9	1	3	8	2
2	3	8	9	5
8	4	7	5	6
6	5	3	9	2
7	4	8		

Game 2				
8	7	4	2	9
3	6	5	8	3
9	2	8	3	8
7	4	1	9	5
4	5	10	2	6
5	6	0	9	2
6	8	11	0	9
3	7	4	3	8
8	5	6	2	9

Alligator Pairs and Trios - Add to 15

Color any two or three numbers that add to 15.

a game for 2 players Need: Pencils

Players take turns to color 2 or 3 numbers that add to 15. The numbers can be anywhere on the board and do not have to be in adjoining squares. For example – on a turn a player could color 8 and 7 or 6, 4 and 5. The last player who can color a pair or a trio that add to 15, is the winner.
